

OptiCA Premium Optical Internet

Enterprise-grade fiber internet for businesses with mission-critical connectivity needs

Product Overview

OptiCA Premium is a dedicated internet service designed for businesses that depend on continuous, high-performance connectivity for critical operations. Available in select geographic areas, this service delivers guaranteed performance and priority support that helps keep your business connected when it matters most.

Standard Features

- Fiber-optic internet service
- Dedicated Internet Access (DIA)
- 95% guaranteed bandwidth
- Uptime guarantee
- Guaranteed 2-hour repair response time
- Priority technical support
- Static IPv4 and IPv6 addresses

Service Details

All OptiCA services provide high-speed, symmetrical connectivity, meaning upload speeds are equal to download speeds. Discounted pricing is available when bundled with Communications Authority business telephone services.

OptiCA High Availability is an optional add-on that can be paired with OptiCA Premium to help maintain connectivity during power outages or fiber cuts.
